2 · ORG-BASED PARTNER — REFERRAL FLOW

Each firm gets an **8-character referral code**. They share:

- `upfloat.co/login?ref={code}` — for new firm signups
- `msme.upfloat.co?ref={code}` — for MSME tracker signups

When a referral is accepted, the referrer gets **+7 trial days** (capped at 42 days total).

Anti-Abuse Guards (all 9 must pass)

1. Redeemer org $\geq$ 48 hours old
2. Redeemer hasn't redeemed before
3. Referrer is still on trial (not a paid customer)
4. No shared user accounts between the two orgs
5. No shared phone numbers between the two orgs
6. No circular referrals ($A \rightarrow B$ and $B \rightarrow A$ both blocked)
7. No network rings across orgs
8. Caller has a phone number on profile
9. Referrer hasn't hit the 42-day cap
